

DMIN Cohort 2016

Important deadlines

Please see [Academic Calendar](#) for Registration Periods.

Electives must be APPROVED by the Program Director and REGISTERED for in the regular registration period as indicated on the academic calendar. Once a semester has begun, you must WAIT to register for your elective until the next registration period.

Registration Information

PLEASE remember to keep in conversation with your advisor before you register! You do not want to be surprised by six remaining required credits.

When in doubt regarding intensive dates - your advisor is the final word.

If you have completed your regular course work and are not registered for an elective then you MUST REGISTER for continuation status. The exception to this is any summer semester.

Do not forget, Thesis Project Research I and II must be registered for before you may graduate. You can take them in one semester or break them up over two semesters.

Registration Process

Meet with your academic advisor (not your thesis advisor) to discuss your progress through the program and your academic performance. This is when you should discuss your plans for elective courses.

After you have met with your advisor, he/she will remove your registration lock on your Populi account.

Log in to Populi. Register for the appropriate classes or continuation status.

Fees and financial aid will be applied to your account and then you will receive a notification that your invoice has been posted. Once your invoice has been posted, you will be able to pay your tuition, print invoices and receipts, and review your account.

DMIN Cohort 2016
